

---

**Table of Contents**

<b>Introduction</b> .....	<b>1</b>
<b>1 What is Myopia?</b> .....	<b>4</b>
1.1 How does it Feel being Myopic? .....	4
1.2 Basic Terminology of the Anatomy of the Eye .....	5
1.3 Accommodation .....	5
1.3.1 Myopia and Emmetropia .....	5
1.3.2 Theory of Accommodation.....	7
1.3.2.1 The Helmholtz Model.....	7
1.3.2.2 The Schachar Model.....	7
1.3.2.3 The Two-Phase-Model .....	8
1.3.2.4 Two other, Controversial Hypotheses .....	8
1.4 Refractive Myopia.....	9
1.4.1 Tonic Accommodation and Night Myopia.....	10
1.4.2 Pseudomyopia .....	11
1.4.3 Other Types of Myopia .....	12
1.5 Axial Myopia .....	13
1.6 "What Type of Myopia Do I Have?" .....	13
1.7 Consequences and Risks of Higher Myopia.....	14
1.8 Myopia and Age .....	18
1.9 Accommodation and Age / Presbyopia .....	18
1.10 Age Related Geometrical Changes of the Eye.....	20
1.11 The Refraction.....	21
1.11.1 Basic Procedure .....	21
1.11.2 A Method for Refraction: Fogging.....	25
1.11.3 The Range of Clarity .....	26
<b>2 What Causes Myopia in General?</b> .....	<b>27</b>
2.1 Is Myopia Inherited?.....	27
2.2 Connective Tissue Disorders.....	30
2.3 Active Growth by Imaging Effects .....	31
2.4 Mechanical Effects .....	31
2.5 General Overview of the Causes of Myopia .....	32
<b>3 Myopia – Observations and Experimental Results</b> .....	<b>33</b>
3.1 Distribution of Myopia by Region, Age, Gender and Ethnicity.....	33
3.2 Accommodation and Near Work.....	37
3.2.1 Experiences and Results.....	37
3.2.1.1 General Experiences and Results.....	37
3.2.1.2 The Effect of Accommodation on Axial Length.....	40

---

3.2.1.3	The Effect of Accommodation on Image Quality.....	41
3.2.1.4	Timing- and Hysteresis- Effects of Accommodation .....	42
3.2.1.5	Dark Focus and Accommodative Hysteresis.....	44
3.2.1.6	The Strength of Accommodation.....	44
3.2.1.7	Accommodation Spasm .....	46
3.2.1.8	Myopia caused by Hyperopia .....	47
3.2.1.9	"Screen sightedness" by SmartPhones and Tablet-PCs.....	48
3.2.1.10	Aniso-Accommodation .....	48
3.2.1.11	Is there a Connection between Blur Sensitivity and Accommodation Deficits?.....	49
3.2.1.12	Accommodation and the Nervous System .....	49
3.2.1.13	Accommodation and Biochemistry .....	50
3.2.1.14	"Emmetropization" towards Myopia via Accommodation? .....	51
3.2.1.15	Myopia before modern Times .....	52
3.2.1.16	Summary of Results about Accommodation .....	52
3.2.2	Proposed Therapies Based on the Accommodation Issue .....	53
3.2.2.1	Relaxing and Exercising.....	53
3.2.2.2	Biofeedback.....	55
3.2.2.3	Undercorrection for Near Work, Plus-, Bifocal- and Progressive- Glasses .....	56
3.2.2.3.1	General Results .....	56
3.2.2.3.2	Plus Addition, Bifocals and their Prismatic Effects.....	61
3.2.2.3.3	Bifocal and Multifocal Contact Lenses.....	62
3.2.2.3.4	Summary .....	63
3.2.2.4	Why is there no Agreement about the Usefulness of Plus-Glasses?.....	66
3.2.2.5	Intermittent, Short Term Wearing of Plus Glasses .....	67
3.2.2.6	Plus glasses – are they Effective via Reduced Accommodation or via Modified Vergence? 67	
3.2.2.7	Comparison of the Various Optical Methods .....	69
3.2.2.8	Psychological Problems with Special Glasses for Near Work .....	70
3.2.2.9	Permanent Undercorrection instead of Undercorrection for Near Work only.....	71
3.2.2.10	Plus-Glasses to Reverse Myopia? .....	73
3.2.2.11	Is the Accommodation System Getting too Lazy by the Plus-Glasses? .....	73
3.2.2.12	How to Break an Accommodation Spasm? .....	74
3.2.2.13	Summary of the Accommodation Based Therapies.....	75
3.3	The Effects of Image Quality and Light-Exposure.....	77
3.3.1	Basic Results .....	77
3.3.2	Connective Tissue Related Results .....	80
3.3.3	Dopamine and Light Exposure .....	84
3.3.4	Remarks on the Image Quality Model .....	86
3.3.5	"Emmetropization" towards Myopia via Image Quality? .....	87
3.3.6	Intermittent, Short Term Wearing of Plus Glasses .....	90
3.3.7	Contrast and Spatial Frequency .....	92

3.3.8	Monochromatic Aberrations and other Optical Deficiencies.....	93
3.3.9	Peripheral Defocus and Dual-Focus Lenses .....	96
3.3.10	Summary of the Effects of the Image Quality.....	100
3.4	Basic Question – what Elongates the Eye .....	101
3.4.1	Image Quality and Accommodation .....	101
3.4.2	Myopia by Accommodation or Myopia by Degraded Image Quality?.....	102
3.4.3	Emmetropization by Growth or Mechanical Stretching or Biochemical Thinning?..	105
3.5	Phoria, Convergence, Astigmatism and Anisometropia.....	105
3.5.1	Phoria.....	105
3.5.2	The AC/A Ratio .....	107
3.5.3	The CA/C Ratio, and some more Types of Vergence.....	109
3.5.4	Hysteresis of Vergence.....	110
3.5.5	Glasses, Contact Lenses and Vergence .....	110
3.5.6	Prescription of Prisms.....	111
3.5.7	The Impact of Vergence on the Axial Length .....	113
3.5.8	Astigmatism.....	113
3.5.9	Anisometropia .....	113
3.5.10	Summary of the Vergence Related Effects .....	113
3.6	Saccades and Focusing .....	115
3.7	Mechanical Properties, Stress, Strain and Pressure.....	116
3.7.1	Impact of Mechanics on Biochemistry.....	116
3.7.2	Intraocular Pressure (IOP) .....	116
3.7.3	The Ciliary and other Muscles .....	119
3.7.4	The Lens .....	121
3.7.5	The Ocular Shape.....	122
3.7.6	The Zonular Fibers.....	123
3.8	Relations between the Dimensions of the Cornea, the Crystalline Lens and the Ciliary Muscle.....	123
3.9	Growth or Stretching and Thinning or Biochemical Thinning of the Sclera in Myopic Eyes? 124	
3.10	Outdoor Activities.....	127
3.11	Sun Exposure.....	129
3.12	Seasonal Impact.....	130
3.13	Physical Exercises.....	130
3.14	Illumination / Light / Day- and Night-Rhythm .....	131
3.14.1	Day- and Night-Rhythm.....	131
3.14.2	Level of Illumination .....	134
3.14.3	Color of Illumination – Wavelength of the Light.....	140
3.14.4	Flickering Light and Flashing Light .....	143
3.15	Vision Training / Vision Therapy / Behavioral Optometry.....	143
3.16	Temperature.....	144

---

3.17	Blood Circulation .....	146
3.18	Some Specific Biochemical Issues .....	147
3.18.1	The Immune System .....	147
3.18.2	Oxidative Damage and Antioxidant Defense in General.....	149
3.18.3	Enzymes Glutathione, Glutathione Peroxidase, Superoxide Dismutase, G6PD .....	150
3.18.4	The Blood-Retinal Barrier .....	151
3.18.5	The Vitreous Body.....	151
3.18.6	Nitric Oxide (NO) .....	152
3.18.7	Cross-Linking of the Collagen of the Sklera by UV-Radiation and Roboflavin .....	154
3.18.8	More Biochemical and Biomechanical Effects.....	155
3.19	Mental Issues.....	156
3.19.1	Stress .....	156
3.19.2	Personality and Mentality.....	159
3.20	Why are some People not becoming Myopic, Independent from the Circumstances?.....	161
3.21	A Study: Factors Associated with Myopia in School Children.....	162
3.22	Recommendations from Optical and Biomechanical Results .....	163
3.23	Myopic Changes in Pregnancy.....	164
3.24	Impact of Nutritional Components.....	164
3.24.1	Carbohydrates, Blood Sugar Level, Insulin Metabolism.....	165
3.24.2	Is there a Connection between the Blood Sugar Level and Negative-Lens-Induced Myopia? 168	
3.24.3	Calcium, Vitamin D and Sunlight .....	169
3.24.4	Vitamin D and Dopamine.....	172
3.24.5	Magnesium.....	172
3.24.6	Copper and Zinc.....	172
3.24.7	Chromium.....	174
3.24.8	Manganese.....	174
3.24.9	Potassium.....	175
3.24.10	Iodine / the Thyroid Gland.....	175
3.24.11	Fluoride .....	175
3.24.12	Fat .....	176
3.24.13	Vitamin A.....	176
3.24.14	B-Vitamins .....	176
3.24.15	Some More Antioxidants.....	177
3.24.15.1	Selenium .....	177
3.24.15.2	Flavonoids and Related Compounds, and Vitamin E.....	178
3.24.16	Folic Acid and Homocysteine .....	179
3.24.16.1	Observations .....	179
3.24.16.2	An Explanation .....	180
3.24.17	Other Components of the Diet .....	180
3.24.18	Overall Nutritional Status and Myopia.....	181

3.25	Pharmaceuticals .....	182
3.25.1	Atropine.....	182
3.25.2	7-Methylxanthine.....	184
3.25.3	Other Pharmazeutical Agents .....	184
3.26	Other Means to Slow Down or Stop Progression of Myopia .....	186
3.26.1	Contact Lenses.....	186
3.26.2	Orthokeratology / Overnight Corneal Reshaping (OCR).....	188
3.26.3	Orthocology.....	191
3.26.4	Reinforcement of the Sclera .....	191
3.26.5	Acupuncture and Acupressure .....	192
3.26.6	Electrostimualtion .....	192
3.27	Summary of Randomized Trials to Slow Progression of Myopia .....	192
3.28	Correction of Myopia by Surgery.....	193
3.28.1	Manipulation of the Cornea.....	193
3.28.1.1	Radial Keratotomy RK.....	193
3.28.1.2	Photorefractive Keratectomy (PRK) .....	194
3.28.1.3	Laser In Situ Keratomileusis (LASIK, Epi-LASIK), Laser Epithelial Keratomileusis (LASEK), Femto-Lasik.....	194
3.28.1.4	Small Incision Lenticule Extraction (SMILE) .....	195
3.28.1.5	Intrastromal Corneal Ring.....	195
3.28.1.6	Artificial Cornea .....	195
3.28.2	Manipulation of the Lens System inside the Eye .....	195
3.29	Summary: What Causes Myopia? .....	197
3.29.1	School and Myopia.....	198
3.29.2	Is Myopia Caused by Mechanical or by Biochemical Processes?.....	199
3.29.3	Prevention of Progression of Myopia or Prevention of Myopia?.....	200
3.29.4	Working against Myopia or against the Consequences of Myopia?.....	200
3.29.5	Inflammation towards Progressive and Pathologic / Malignant Myopia.....	200
3.29.6	Functional- versus Structural- Deficits .....	201
3.29.7	Is Myopia Inherited or Acquired?.....	202
3.29.8	Congenital Myopia, and Inherited Diseases which are related to Myopia .....	203
3.29.9	From Simple to High and Progressive Myopia .....	205
3.29.10	Summary of the Summary: Are the Published Results really Contradictory? Maybe not! .....	206
<b>4</b>	<b>A Synthesis – or how some Pieces might Fit together .....</b>	<b>212</b>
4.1	Some General Remarks about Nutrition and Environment .....	213
4.1.1	Biochemistry versus Mechanical Effects versus Optical Effects?.....	213
4.1.2	Nutrition and the Environment have Changed Dramatically .....	214
4.1.3	There is a very Large Biochemical Individuality .....	218
4.1.4	The Impact of "Foreign" Microorganisms.....	218

---

4.1.5	There are Biochemical Alterations before Clinical Symptoms Arise.....	219
4.1.6	There can be Selective Nutrient Deficiency .....	219
4.1.7	Nutrition and Environment Can Change even the Genetic Inheritance .....	219
4.1.8	Summary – the Balance .....	220
4.2	Some Relevant Biochemical Key Issues .....	220
4.2.1	The Connective Tissue.....	221
4.2.1.1	Connective Tissue in General .....	221
4.2.1.2	The Connective Tissues of the Eye .....	223
4.2.2	The Immune System .....	223
4.2.2.1	Natural (Innate) Immunity.....	223
4.2.2.2	Acquired Immunity.....	224
4.2.2.3	Pathologic Immune Responses .....	225
4.2.2.4	Effects of the Immune System on the Tissue .....	225
4.2.2.5	Turnover of Connective Tissue and the Immune System .....	226
4.2.2.6	TH1/TH2 Balance .....	226
4.2.2.7	Neurotransmitters and the Immune System .....	227
4.2.2.8	Stress and the Immune System .....	228
4.2.2.9	The Gut and the Immune System.....	228
4.2.2.10	Acupuncture and the Immune System.....	229
4.2.2.11	Melatonin and the Immune System, Microcirculation and Homocysteine .....	229
4.2.2.12	The Eye and the Immune System .....	229
4.2.2.13	Summary Immune System .....	230
4.2.3	Miscellaneous issues .....	231
4.2.3.1	The Metabolism of the Feedback Process Leading to Myopia via Degraded Image Quality	231
4.2.3.2	Oxidative Processes and Antioxidant Defense .....	231
4.2.3.3	Cortisol and other Hormones .....	232
4.2.3.4	The Nitric Oxide (NO) Balance .....	232
4.2.3.5	"The Nerves": Neurotransmitters, Stress and Personality.....	239
4.2.3.6	Homocysteine.....	240
4.2.3.7	The Day- / Night-Rhythm, Illumination, and Melatonin Metabolism.....	242
4.2.3.8	Blood Sugar Level / Insulin Level.....	243
4.2.3.9	The Sodium / Potassium Balance.....	245
4.2.3.10	Hormones .....	246
4.2.3.11	Physical Exercises and Physical Stress.....	247
4.2.3.12	G6PD (Glucose-6-Phosphatase Dehydrogenase) Deficiency – an Example.....	248
4.2.3.13	Is there an Analogy between Structural Heart Problems and Progressive Myopia?	251
4.2.3.14	Is there an Analogy between Arthritis and Progressive Myopia? .....	251
4.3	The Impact of Nutritional Components .....	252
4.3.1	Minerals.....	253
4.3.1.1	Calcium .....	253

---

4.3.1.2	Chromium .....	255
4.3.1.3	Copper .....	256
4.3.1.4	Magnesium.....	259
4.3.1.5	Manganese.....	260
4.3.1.6	Selenium .....	261
4.3.1.7	Silicon .....	264
4.3.1.8	Zinc.....	265
4.3.2	Vitamins.....	266
4.3.2.1	Vitamin A.....	266
4.3.2.2	B-Vitamins .....	267
4.3.2.2.1	Vitamin B2 (Riboflavin).....	267
4.3.2.2.2	Vitamin B5 (Pantothenic Acid).....	268
4.3.2.2.3	Vitamin B6 (Pyridoxine, but also Pyridoxal or Pyridoxamine) .....	268
4.3.2.2.4	Vitamin B12 (Cobalamin) .....	270
4.3.2.3	Folate / Folic Acid (member of the family of B-vitamins) .....	270
4.3.2.4	Interactions between B Vitamins .....	271
4.3.2.5	Vitamin C .....	271
4.3.2.6	Vitamin D – or Sunlight .....	272
4.3.2.7	Vitamin E.....	274
4.3.3	Other Components of Nutrition, and some Facts about Nutrition.....	275
4.3.3.1	Flavonoids .....	275
4.3.3.2	Carbohydrates .....	276
4.3.3.3	Lipids and Fatty Acids.....	277
4.3.3.4	Amino Acids .....	278
4.3.3.5	Proteins.....	278
4.3.3.6	Some Other Nutrients.....	279
4.4	Nutrition, some General Facts .....	280
4.5	Impact of Nutrition and Behavior– Summary.....	282
4.6	The "Right" Supply with Vitamins and Minerals, and the Supply Status.....	284
4.7	The Speed of Nutritional Effects.....	288
<b>5</b>	<b>Overall Recommendations .....</b>	<b>289</b>
<b>6</b>	<b>Additional Information .....</b>	<b>293</b>
6.1	Optical Correction.....	293
6.1.1	Glasses .....	293
6.1.2	The Material of the Glass.....	293
6.1.3	The Coating of the Glass.....	294
6.2	Contact Lenses .....	294
6.2.1	Basic Types of Lenses – Soft Lenses versus Hard Lenses .....	295
6.2.2	How about Lenses for Permanent Wear? .....	299
6.2.3	Potential Complications.....	300

6.2.4	Parameters of the Material for Contact Lenses .....	301
6.2.4.1	Oxygen Transmission .....	301
6.2.4.2	Wettability and Resistance against Deposits .....	303
6.2.4.3	Hardness and Stability.....	304
6.2.4.4	Specific Weight and Refractive Index .....	305
6.2.4.5	UV Blocking.....	305
6.2.4.6	Color / Tint of the Lens.....	305
6.2.5	Parameters of the Geometry of Contact Lenses .....	305
6.2.6	Surface and Edge Finishing .....	308
6.2.7	The Fitting of Contact Lenses .....	309
6.2.8	The "Right" Power of Contact Lenses .....	310
6.2.9	Determining the Refraction after Wearing Contact Lenses.....	310
6.2.10	Maintenance of the Lenses .....	311
6.2.10.1	Maintenance of Hard RGP Lenses .....	311
6.2.10.2	Maintenance of Soft Lenses .....	312
6.2.11	"I Cannot Wear Contact Lenses" .....	313
6.2.12	Presbyopia .....	314
6.2.13	Contact Lenses and Nutrition .....	316
6.3	Refractive Surgery.....	317
6.4	Useful Links .....	320
<b>7</b>	<b>References .....</b>	<b>322</b>
